

MUHAMMAD ARHAM

Mehrabpur, Sindh, Pakistan | +92 310 3323518 | mr.arham170@gmail.com | linkedin.com/in/arham-bhatti-b00265421 | github.com/Arham518 | arham-portfolio-web.netlify.app

PROFESSIONAL SUMMARY

Results-driven Computer Science graduate with hands-on experience building responsive, user-focused web applications using HTML5, CSS3, JavaScript (ES6+), and React, along with backend exposure through Flask, Node.js, and SQL. Proven ability to translate design mockups into pixel-perfect, cross-browser-compatible interfaces and collaborate effectively within agile development teams. Delivered 7+ responsive web projects and improved biometric recognition accuracy through applied machine learning. Seeking a Frontend Developer or Junior Web Developer role to apply strong problem-solving skills and contribute to building scalable, maintainable web applications.

EDUCATION

Bachelor of Science in Computer Science

NED University of Engineering and Technology, Karachi, Pakistan | 2022 – 2026 | CGPA: 3.00 / 4.00

PROFESSIONAL EXPERIENCE

Web Development Intern — VirtuoSoft Software House *March 2025 – May 2025 | Karachi, Pakistan*

- Built responsive, cross-browser web pages using HTML5, CSS3, and JavaScript, converting design mockups into functional, pixel-accurate interfaces.
- Developed and maintained reusable front-end components, improving layout consistency and usability across desktop and mobile devices.
- Debugged and tested application features to identify and resolve UI issues prior to deployment, reducing post-release defects.
- Collaborated with a cross-functional team of developers and designers to translate project requirements into working web pages.
- Refined page navigation and interface responsiveness, contributing to an improved overall user experience.
- Supported ongoing website development projects through coding, testing, and technical documentation.

PROJECTS

FlowDesk — SaaS Productivity Platform

- Engineered a React-based SaaS web application featuring task management, notes, and analytics modules with reusable UI components.
- Built 5+ interactive analytics views using componentized dashboards, improving data accessibility for end users.
- Designed a fully responsive layout ensuring consistent performance and usability across desktop, tablet, and mobile breakpoints.

Fingerprint Enhancement System | reidehancemenet.netlify.app

- Developed a machine learning-based system to enhance fingerprint images for biometric recognition, applying OpenCV and TensorFlow image-processing techniques to improve ridge clarity and reduce noise.
- Processed and prepared image datasets for model training and testing, directly improving fingerprint recognition accuracy.
- Built a React front end integrated via REST API (Axios) with a Python/Flask backend to demonstrate the enhancement pipeline and present results.

Bio-Scan Web Application

- Engineered a single-page React UI with Redux state management and React Router, translating design mockups into a fully functional interface.
- Styled responsive layouts using Tailwind CSS, Bootstrap, and Material UI components for consistent cross-device presentation.
- Integrated a Node.js/Express and Firebase backend for real-time data storage and retrieval.

Web Development Projects (Portfolio) | webdevelopedbvirahim.netlify.app

- Designed and built multiple responsive web applications using HTML5, CSS3, JavaScript, and React, ensuring consistent functionality across desktop and mobile devices.
- Implemented backend logic and data handling using Flask and SQL to support core application features.
- Focused on clean UI architecture and responsive design principles to deliver a smooth user experience across all screen sizes.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, C++

Frontend: HTML5, CSS3, React, React Router, Redux, Context API, Responsive Web Design, Cross-Browser Compatibility

UI Frameworks: Tailwind CSS, Bootstrap, Material UI

Backend: Node.js, Express, Flask, REST API (Axios)

Database: SQL, MongoDB, Firebase

Tools & Platforms: Git, GitHub, npm, Vite, VS Code, Netlify, Vercel

ML / Image Processing: OpenCV, TensorFlow

SOFT SKILLS

Problem Solving, Communication, Teamwork, Adaptability, Quick Learning, Time Management

LANGUAGES

English (Intermediate), Urdu, Sindhi, Punjabi
